

CAPTURE YOUR SPECIAL MOMENT OF LIFE.

Anyone can photograph these day in the time of mobile phones and compact camera's, but to capture the perfect image requires a considerable level of skill, training, passion, patience and creativity.

Preserve a moment in life, every moment is unique; your style, age and look, this moment will never be the same at any other point in life. I can help you to capture this beautiful sentiment in a photo session... I will show you a new way to express yourself, there's a reason for the saying "a picture is worth a thousand words". Also an event with your friends and family is the possibility to get to know each other on a different level.

Everyone is growing older, also your kids are growing up. A photo session is valuable memory to look back on these special years. Humans are very visual beings, and photographs convey a lot of meaning. Whether it's for your grandchildren to have pictures of their relatives or for your newborn to have baby photos to treasure, scheduling a family photo session can be like a time capsule to bring back memories in years to come. Or maybe you want to remember a specific vacation, or a visual record of your relationship or your wedding. Birthdays and holidays come every year, so why not add a special touch to one of them by scheduling me as your photographer? Maybe the whole family is getting together for Christmas, or you want a meaningful way to celebrate your 20th, 30th or 50th birthday.

Your favorite place, a key aspect of photography is location; if you've found a spot that is particularly meaningful to you, or if you're traveling somewhere new and you want to have professional photos to remember the trip, it's a good idea to have a photo-shoot there. Things are constantly changing, and you'll be grateful to have photographs to remember a certain spot at a certain moment in time in years to come.

A Photo session for the experience, why not just try it? Photo sessions might sound different, and perhaps a bit overwhelming, but why not break the mystery and give it a go yourself. You'll have the opportunity to learn something new, maybe feel a bit like a celebrity yourself, and cool pictures to remember everything by. One of my favorite things I love to do is share my picture. Below a few examples.

Why a photo session.

- *It connects your family.*
- *Beautiful moments of your life, like your wedding, deserve a perfect shot.*
- *A strong bonding with your friends.*
- *To remember a special event in your life, like your graduation.*
- *A capture of your beauty on this moment, you are worth it!*
- *To look back on your holiday*
- *To have beautiful wild life pictures*
- *A new born baby deserves a shoot.*
